Bremerton, and Kitsap County

Section 13

Owner and Renter Costs as a Percentage of Household Income: 1999

Introduction

A useful indicator of household well-being is the amount of household income that is spent on housing costs. As expenditures on housing costs rise the amount of income available for other needs such as food, clothing, transportation, medical care, and health insurance declines. This section focuses on households on the Olympic and Kitsap Peninsulas with high housing costs—those where 35% or more of household income was spent on homeownership¹ or rental costs² in 1999³.

The tables on pages 7 through 10 examine high housing costs by four categories of household income: households with incomes below \$19,999; between \$20,000 and \$34,999; \$35,000 and \$49,999; and those with incomes above \$49,999. As these tables show, the number and percent of households in 1999 that spent 35% or more of their income on either owner costs or gross rent tended to be highest for households with incomes under \$19,999. Conversely, the number and percent of households with incomes over \$49,999 in 1999 that spent over 35% of their income on owner costs or gross rent was extremely low or nonexistent. This distribution shows that households in the lowest income bracket are more likely to experience economic strain in providing for their

¹ Monthly owner costs refer to owner-occupied housing units and include costs such as mortgage payments, home equity loans, real estate taxes, property insurance, and utilities. It also includes, where appropriate, monthly condominium fees or costs associated with owning a mobile home.

² Rental cost is the gross rent of households living in rented housing units. Gross rent includes the contract rent and the estimated average monthly costs of utilities (gas, water, sewer, etc) and fuels (oil, coal, wood, etc).

³ U.S. Census data on income for 2000 is based on 1999 income.

families because of high housing costs. Accordingly, the discussion in this section will focus on these households.

Clallam County

In Clallam County the percent of low income households that spent 35% or more of their income on either gross rent or owner costs was somewhat lower than the state's average. For households that earned \$19,999 or less and rented in 1999, 65.6% spent 35% or more on gross rent (or 2,117 households). For those that were homeowners, 48.9% (or 1,121 households) spent 35% or more on owner costs. The state average for these two categories in 1999 was 68.5% for gross rent and 55.4% for owner costs.

At the sub-county level, the highest number of low income households that had high rent or owner costs occurred in the Port Angeles area, at 1,364 and 637 households, respectively—about half of all the county's households in this category. The highest percent of low income households with high rent costs occurred in the Sequim area, at 73.6%. The highest percent of low income households with high owner costs was also in the Sequim area, at 53%, or 312 households. The areas of Neah Bay and East of Neah Bay had the lowest percent of low-income households with high owner costs, at 16.7% and 10.8%, respectively.

Grays Harbor

The percent of low income households in Grays Harbor County that spent 35% or more of this income on gross rent or owner costs was 63.7% (or 2,418 households) and 48.4% (or 1,236 households), respectively. These averages were below the state's average, at 68.5% for gross rent and 55.4% for owner costs.

At the sub-county level the highest percent of low income households that had high rental costs occurred in the Aberdeen and Hoquiam areas. Percents in the Aberdeen area ranged between 57.1% and 77.7%, and percents in the Hoquiam area ranged between 52.4% and 74.7%. The Southeast/Oakville area also had high percents, at 75.3%.

The highest percent of low income households that had high owner costs was in the Aberdeen area. Three out of the four sections of Aberdeen had percents higher than the county's average, with most rates ranging between 52.5% and 64.9%. The North Beach/Ocean Shores area also had percents higher than the county's average, at 54.4%.

Jefferson County

In Jefferson County during 1999 the percent of households with incomes less than \$19,999 that spent 35% or more on gross rent was 60.3%, or 761 households. This was below the state's average of 68.5%. The percent of households in the county in this income range that spent 35% or more on owner costs was 44.1% (406 households), a percent also below the state's average of 55.4%.

At the sub-county level, the highest number of low income households that had high rental costs in 1999 occurred in the Port Townsend area, with 427 households in this category, or 61.4% of households in this income category. The highest percent of low income households that had either high gross rent or owner costs occurred in the Marrowstone Island area, at 71.7% (124 households) for gross rent and 62.2% (61 households) for owner costs.

Kitsap County

In Kitsap County the percent of low income households that spent 35% or more of their income on either gross rent or owner costs was near the state's average for 1999.

For households that earned less than \$19,999 in the county, 68.3% of households (6,110 households) had high rental costs. The state's average was 68.5%. Low income households that had high owner costs in Kitsap County in 1999 were 61.8% (or 2,171 households) while the state's average was 55.4%.

The highest percent of low income households that had high rental or owner costs occurred in the Bremerton area. The percent of households that spent 35% or more on gross rent in this area tended to range between 66.5% to 100%. The percent of households that spent 35% or more of their incomes on owner costs in the Bremerton area typically ranged between 60.6% and 85%.

Mason County

The percent of households in Mason County in 1999 that earned less than \$19,999 and spent 35% or more of their income on gross rent was 65.1%, or 964 households. The state's average was 68.5%. The percent of households in the county that spent 35% or more of their income on owner costs in 1999 was 45.7%, or 632 households. This was below the state's average of 38.2%.

Many sections of Shelton had high rates of households that had high rental costs. Over half of all the county's households were in the Shelton area—a total of 535 households. For low income households that had high owner costs, the highest percent occurred in the North Canal area, with 64.1% of households in this category. Approximately one-third of the households in this category for the county were in the Shelton area (a total of 233 households), where percents ranged between 38.9% and 56.5%.

Pacific County

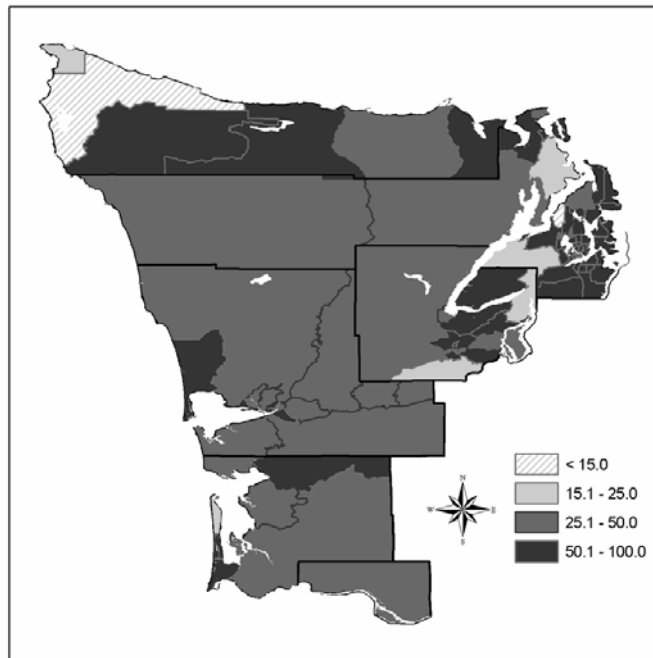

The percent of low income households in Pacific County during 1999 that earned less than \$19,999 and spent 35% or more of their income on gross rent was 52.4%, or 567 households. The percent of households in this income category that spent 35% or more of their income on owner costs in 1999 was 49.3%, or 519 households. For comparison, the state's average in these two categories was 68.5% (gross rent) and 55.4% (owner costs).

At the sub-county level approximately half of the low income households that had high rental costs in 1999 occurred in the Raymond and South Bend areas. In the Raymond area 55.1% of households were in this category, or 152 households. The South Bend area had 45.3% of households, or 102 households. The Raymond area also had the highest number of low income households that had high owner costs, at 153 households, or 59.8%. The Ocean Park area had the highest percent of low income households that had high rental costs with percents ranging between 65.5% and 68.6%, or a total of 138 households.

Wahkiakum County

In Wahkiakum County the percent of low income households that earned less than \$19,999 in 1999 and spent 35% or more of their household income on gross rent was 59.3%, or 73 households. For comparison, the state's average was 68.5%. The percent of low income households that spent 35% or more of their income on owner costs was 46%, or 40 households for the county, while the state's average was 55.4%.

Household Income \$19,999 and Under in 1999:
Owner Costs 35% or More of Income

Household Income \$19,999 and Under in 1999:
Gross Rent Costs 35% or More of Income
